## ROOSEVELT WILL BE INDORSED

PARTY LEADERS SO AGREE AT PLATT'S CONFERENCE.

Though, of Course, the Party Cannot Now Pledge Itself to Vote for Him in 1904 -Trust and Reciprocity Planks in saratoga Platform Not Yet Settled.

One of the most important Republican conferences in many years took place at the home of the Hon. George R. Sheldon, 24 East Thirty-eighth street, yesterday Senator Platt, in his desire for victory in the State this fall, had sent out invitations to leading Republicans in the State, from Brooklyn Bridge to Suspension Bridge, to come down here yesterday afternoon and discuss affairs of moment which must be finally decided by the Republican State Convention at Saratoga, beginning on Tuesday week.

conference began at 2 o'clock, and besides Mr. Platt and Mr. Sheldon there were resent these notable Republicans:

Senator Chauncey M. Depew, the Hon. James S. Clarkson, Surveyor of the Port; Postmaster Cornelius Van Cott, Col. George Dunn, chairman of the Republican State ommittee; Lieut.-Gov. Timothy L. Wood-Representative Sereno E. Payne of Auburn, Representative James S. Sherman of Itica, Representative James W. Wadsworth of Geneseo, Francis Hendricks of Syracuse, State Superintendent of Insurance; George W. Aldridge of Rochester, former Superintendent of Public Works; John Dwight of Dryden, Senator Timothy E. Ellsworth of Lockport, President pro m of the State Senate since 1896, former Senator J. Sloat Fassett, President Robert C. Marris of the Republican County Committee, Edward Lauterbach, former president o the County Committee; former United States Senator Frank Hiscock of Syracuse, National Committeeman Frederick S. Gibbs, Louis F. Payn of Chatham, Lemuel E Quigg, former president of the New York aty Committee; Representative George W. Ray of Norwich, appointed on Friday by President Roosevelt to be United States Judge for the Northern district of New York: Senator Edgar T. Brackett of Sara toga, the Hon. William C. Warren of Buf falo, the Hon. William Barnes, Jr., chairman of the Republican State Executive Committee; the Hon. Frank Wayland Higgins of Olean, the Hon. S. Fred Nixon, Speaker of the Assembly, and one or two

Senator Platt had called together these Republicans for the purpose of discussing the platform which will be finally accepted the Committee on Resolutions of saratoga convention. There were many preliminary matters to be gone over, and may be said that the three subjects dis cussed at the conference in Mr. Sheldon's house yesterday afternoon were these: First-The action to be taken by the State convention as to President Roose-

velt's political future.

Second—The trust plank to be adopted.

Third—The plank in the convention
concerning reciprocity with Cuba.

The conference in Mr. Sheldon's house
lasted until long after dark. When it broke was more or less reticence on the who had participated in this

important gathering.
Senator Platt announced that Col. Dunn, chairman of the Republican State Committee, was authorized to speak for publica-But the Colonel is a very reserved man, and he only desired to say a few words on the plank which is to be introduced concerning President Roosevelt. Col.

"The President and his Administration are to be most heartily indorsed, and the convention without doubt will say that the President should be reflected by the voters in 1904. The convention will not neglect to say the kindest words for the President's political future. Of this there can be no mistake whatever, and all Re-publicans in the State of New York will agree with our attitude in this matter."

The Saratoga convention of 1902, so it was explained, cannot pledge the delegates

of the State convention of 1904 to vote for President Roosevelt in the National Convenion of that year. That would be contrary o all precedent, and, as a matter of fact, contrary to the wishes of those deeply erested in this matter; but the convention can put itself on record as believing heartily in the desire of the Republican voters in 1904 to elect President Roosevelt. Col. Dunn wouldn't say a word as to the

deliberations of the conference on either the trust or reciprocity planks to be adopted at Saratoga. From other sources it was ascertained, however, that Louis F. Payn ascertained, nowever, that Louis F. Ayn had a few guying words to say to his fellow conferees in Mr. Sheldon's house. Mr. Payn himself, at the Holland House last night, refused to speak a word as to what he had said in the conference, but other Republicans who sat beside him said that Mr. Payn believed that beyond the usual indorsement of a Republican State Convention to a Republican National Convention pothing further should be re-

For all that, however, friends of Mr. Payn asserted that even the strongest kind of a plank for the President's support in 1994 will not be combatted by the faconal adversaries of the President in the Empire State, for the reason that they have no desire to injure the election of the Republican Republican State ticket, a Republican Legislature and the Republican Repre-

sentatives in Congress.

Concerning the trust plank to be presented to the Saratoga convention, it was said that the Hon. Edward Lauterbach has his in his keeping, and that it will be framed accordance with the well-known prinples of the Republican party against all lawful trusts and all trusts which seek

to crush out honorable competition.

As to the plank concerning reciprocity with Cuba, the conferees believed, so it was asserted, that they should have a little more time in which to discuss this most important question. The Hon. most important question. The Hon. Sereno E. Payne of Auburn, chairman of the Ways and Means Committee at Washington, had gone all through this fight during the last winter, it was said, and the final decision as to the utterances of the Saratoga convention should not be taken at vesterday's conference.

There are still ten days before the Saratoga platform is to be adopted, and in this time the best minds in the Republican party of the State will evolve the final plank

conference the canal plank to be adopted by the convention, and it was made known that the Hon. George Clinton and the Hon. John Laughlin of Buffalo purpose to attend the convention in the interest of the canal men and present their views

to the canal men and present their views to the Committee on Resolutions.

So the canal plank was not settled. But one thing was decided upon, it was said, and that was that the Saratoga Convention shall adopt strong resolutions in favor of good roads all over the State of New York.

Not a word was said at the conference ecording to some of the statesmen, con-cerning the officers of the convention, but was declared unreservedly last night that Mr. Quigg is to be temporary chair-

day morning from his visit to the President at Oyster Bay, Mr. McDonough during the campaigns of 1898, when Mr. Roosevelt was a candidate for Governor, and in 1900, when Mr. Roosevelt was a candidate for Mr. Roosevelt was a candidate for Vice-President, did valiant service for the Nobody has recognized President, Senator Platt Republican party this more than the President, Senator and Gov. Odell, and they have all made it known to Mr. McDonough that they

it known to Mr. McDonough that they would like to have him accept a third nomination for Secretary of State.

Mr. McDonough believes that he should be nominated for Associate Judge of the Court of Appeals. He thinks that his services should be recognized. The Republican leaders of the State, however, have had an opinion for the last two or three months that the Hon. William E. Werner of Monroe should have this high place, and without doubt he will be nominated.

The State Secretary said to the President and to Senator Platt that he was grateful for the past honors given to him by the party. Mr. McDonough, however, insisted to the President and Senator Platt that Mr. Werner is already a Supreme Court Justice for the Seventh Judicial district and has six years more to serve. Still, it was the six years more to serve. Still, it was the best opinion yesterday that Mr. McDonough ought to find his way clear to accept the great distinction of a third nomination for Secretary of State, believing that his party will still further promote him later.

Senator Elisworth before and after the conference said:

The indorsement of President Roosevelt will be fair and square, without quibbling. The indorsement of Roosevelt will be as strong as the English language can make it. I don't think the President's friends it. I don't think the President's friends will have any fault to find with the action of the convention in this respect."

So that everything was fine, and yet nothing definite was determined as to the

trust or reciprocity planks to be finally accepted by the Republican State Convention at Saratoga.

The Trunk Line Association yesterday notified Secretary Fox of the Republican State Committee that a rate of one fare for the round trip will be given on all rail-roads of the State to delegates and visitors to the Republican State Convention at Sara-toga on Sept. 23. Tickets will be good going from Sept. 20 to 22 inclusive, and returning Sept. 23 to 25 inclusive.

## BARRED JOHN W. GATES. Chicago Newspaper Says Claridge's Hotel

in London Shut Its Doors to Him. CHICAGO, Sept. 13 .- The Evening News ere to-day printed a cable despatch from London, saving:

"Claridge's Hotel, the home of European and Oriental royalty, of British aristocracy and American millionaires, has barred the doors of its establishment in Brook street against John W. Gates. In the summer of 1900, when plunging on the English racecourses, Gates's habits were of such a character as to induce the management of Claridge's to enter him on its permanent list of undesirables.

"Upon his arrival in London this week concerning the action of the conference Mr. Gates found that he could not engage his former extensive suite of apartments in Claridge's and was compelled to take rooms at the more hospitable and less particular Carlton Hotel in Pall Mall.

\*The manager of Claridge's said: " 'A few weeks ago some one showed us an editorial article in a Chicago newspaper describing Mr. Gates as the most vulgar of American millionaires. The writer must have overheard the remark in our hotel. for that was the name Mr. Gates carned for himself here. After a few months' experience of his style of living we were compelled to intimate to him that profane language and reckless expectoration in an English hotel frequented by well-bred people was intolerable, even in a man able to write checks of eight figures and lose a fortune daily in stocks, horses and cards. Gates's presence was really more objectionable to his countrymen than to any one else."

#### GEN. WEBB SOON TO RETIRE. One Report Is That He Will Leave City College After Next Trustees' Meeting.

Reports which have been in circulation or several months without denial, that Gen. Alexander Seward Webb is soon to resign the presidency of the College of the City of New York, were renewed yesterday, and it was said that the trustees of the institution had received notice of Gen. Webb's intention. Trustees who were seen by a Sun reporter denied this, but persons familiar with the affairs of the col-lege said that Gen Webb would retire during the coming year-possibly at the next meeting of the board of trustees; and that at the same time two members of the faculty, Prof. R. Ogden Doremus of the faculty, Prof. R. Ogden Doremus of the department of chemistry and Prof. James Weir Mason of the department of mathematics, would perhaps also seek retirement on pensions.

Gen. Webb is out of town, but his son, Alexander S.Webb, Jr., admitted yesterday that he would not be surprised if his father did retire very soon.

### SHOT AT WOMAN IN THE STREET. Keating Said She Had Left Him for Another Man Both Under Arrest.

A man and woman, both middle aged, were standing at Twenty-first street and Second avenue yesterday afternoon when passers-by saw the man draw a revolver and fire two shots at the woman. She ran into the basement of 249 East Twenty-first street screaming, followed by the man. There the man fired a shot at himself, which resulted in a scratch on his forehead.

Policemen Corr and Sheehan of the East Twenty-second street station sent for an ambulance and took the man and for an ambulance and took the man and woman to the station. They said they were Harry Keating, 42 years old, of 320 First avenue, and Maggie Greer, 46 years old, of 249 East Twenty-first street. The woman told the police that Keating shot her. The Board of Education protested and the truant officer threatened to have the parents arrested for not sending their children to school, but this bad no effect, and the teachers sat day after day without pupils.

The Board of Education then appointed nine physicians to examine the girl and report as to whether she had any negro blood in her veins. Five of them said she had and four said she had not, and this left the matter in as bad shape as before. The board then entered upon an investigation itself and summoned Mrs. Wade, superintendent of the Home for Friendless Children, at which institution Mabel lives. Mrs. Wade testified that she knew the parents of the child; that they were of French descent and died several years ago, and that Mabel, though unusually dark skinned, had no negro blood in her voins

Memphis, Mr. Gould said: "We will build a \$200,000 passenger staion here within a short time. We would ike the other roads entering Memphis o join us and erect a union station, but

if they will not do so, we stand ready to undertake the work single-handed.

"We also propose to build another bridge across the Mississippi here, too, unless across the Mississippi here, too, unless the Kansas City Bridge Company reduces its tolls. They are charging 50 per cent too high tariff and it would pay us hand-somely to operate a bridge of our own."

Regarding the line now under construction from Memphis to New Orleans, Mr. Gould said that the work would be completed within a year. He said that it would oven a rich section of country and that pen a rich section of country and that would develop the Mississippi Valley such more rapidly than the Yazoo and

# RIO GRANDE ON A RAMPAGE.

Land on the Mexican Side Transferred to

the United States. Austin, Tex., Sept. 13.-The Rio Grande is on a rampage, according to telegrams received here to-day from Rio Grande City and other places along its lower course. It is said in these despatches that the treacherous stream has overflowed its banks at several places below Carrizo and that in Hidalgo county the channel has changed, cutting off a tract of more than one hundred acres of land from the Mexican side and placing it in the United States.

This is said to be the same tract of land which was taken away from Mexico by the

river about five years ago during an overlow of the Rio Grande.

At that time there were several hundred head of sheep on the land and the United States Deputy Collector of Customs at-tempted to collect duty on the animals. Two years later another big rise of the river occurred and the land was trans-ferred back to Mexico.

As soon as the river subsides into a fixed channel, the International Water Boundary Commission will mark the new boundary where question is raised as to the real

# VIOLENCE THEIR LAST WEAPON

SUNDAY, SEPTEMBER 14, 1902. Fair and cool to-day; fair and warmer to-morrow.

> OUTLAWRY APPARENTLY THE HOPE OF COAL STRIKERS.

> Bellef That the Conterence With Gov. Stone Came to Nothing Rumors That Widespread Rioting Will Now He Used to Keen the Men From Going to Work.

WILKES-BARRE, Sept. 13 .- John Mitchell, the leader of the striking miners, get back to his headquarters here from Harrisburg about 10 o'clock this morning, and all day long has resolutely refused to discuss the interview which he had there in the dead of the night with Gov. Stone. People here are disposed to believe that the conference was without result and that, beyond a melancholy restatement of the fact that all efforts of the politicians have failed to marck, in yesterday, jumped into the sea | budge the mine operators from the position they took at the beginning of the strike, this mysterious gathering in the Executive

Mansion ended in talk. There have been no movements about strike headquarters to-day to indicate that something unusual was on foot. The atmosphere there was distinctly gloomy. Among the representatives of all the big epal companies and of the Citizens' Alliance, on the other hand, there was a decided stir. Reports had been coming in from all directions that preparations were under way for a concerted outbreak of violence all along the line on Monday morning. This had come to the ears not only of the local managers of the coal companies, but to those of Mr. Cassidy as well, Mr. Cassidy being the active leader of the Citizens Alliance in the absence of Mr. J. Ridgway

Wright There was a conference between Mr. Cassidy and representatives of the companies whose employees and properties, according to persistent reports, were threatened. An official of the D., L. & W. company said to-day that reports of intended marching raids by strikers on Monday had come to him and that he had been informed that this proposed general renewal of mob violence was part of a deliberate plan of campaign on the part of the strike managers. He said furthermore that if the reports in the meantime continued of the same tenor as those received to-day the Sheriff would be notified to-morrow of the situation and formally called upon to furnish a sufficient force

of deputies to maintain peace. The strike with the beginning of this coming week undoubtedly enters upon a new and critical phase. Either it is to end under some agreement patched up at Harrisburg in the early hours of this morning. or it is to be continued in the face of a growing discontent on the part of the miners, only by great exertions and the promise of some mysterious achievement by the 15th," with the 15th here on Monday and nothing done, nothing doing and nothing in sight, the problem of holding the men in line is a serious one for the strike

leaders. There were accessions even to-day to the ranks of the men actually mining coal right here in Wilkes-Barre under the very nose of Mr. Mitchell's headquarters, the strike storm centre. Representatives of the coal companies say that for over a week back men have been coming to them noon for an inspection tour of the Gould and saying that unless something were one by Sept. 15 they would go back to work this coming week. It is confidently believed that, beginning with Monday morning, there will be a rapid movement of strike disintegration, unless something

meanwhile is done to check it.

And how can it be checked? Heretofore meddling parsons and meddling politicians have acted as the lever with which to lift the strike over similar shoals and kee; it affoat a little longer. But the parsons have quit and the politicians played their trump card when Gov. Stone went to New York this week and came back empty handed. If that Harrisburg conference really were abortive then it looks very much as though the politicians would have to go back and sit down with the demagogues and the well-meaning theologians, with demagoguery, politics and theology eliminated from the field.

Mr. Mitchell will be in the case of sitting down to contemplate the bare stone wall meanwhile is done to check it

down to contemplate the bare stone wall of the operators' stern refusal to budge an inch. But in the meantime he is faced

of the operators' stern retusal to budge an inch. But in the meantime he is faced with the threat of a serious defection. What is he going to do about it? Heretofore both in this strike and others similar crises have been met by increased outbreaks of rioting and murdering. Men who have persisted in working have been beaten, shot and terrorized into submission.

"I think," said a man here to-day, who is in close touch with the situation, "that we are in danger of serious trouble here during the coming week I believe this not only from the reported rumors that such a course is actually planned, but from the logic of the situation itself. Usless the labor agitators are prepared to set the strike, and with it their organization, crumble to pieces they have simply to prevent men from going to work. They have got to terrorize those who are now at work so that they will not dare leave at work so that they will not dare leave their homes.

"Unfortunately the attitude of our Gov-

ernor has been such that many of the ignor-ant strikers have got it into their heads that he is with them. His performances that he is with them. His performances already have prolonged the strike by several weeks. Possibly he has played out his game of cheap polities now and is through. "If that is the case and he will rise up to the situation, as he should have done long before he began his career of fetching and carrying for a pack of irreducing the same of the situation." long before he began his career of reten-ing and carrying for a pack of irresponsible labor agitators—if he will even at this eleventh hour rise up to an appreciation of his responsibilities and make it know that he means to protect citizens of Penn-sylvania in their right to work for a living, why he will put an end to the strike in short order.

why he will put an end to the strike in short order.

"The situation is that a compact, or ganized, desperate minority of the miners is dominating and terrorizing an overwhelming, but incoherent majority into submission. Gov. Stone, who has his own share of responsibility for the existence of this disgraceful state of affairs, can end it all in twenty-four hours if he chooses. The one thing necessary to end the strike is the assurance that law-abiding citizens may go about their employment without fear of assas-ination.

"Is the Governor of Pennsylvania going to give the citizens of the State that assur-

"Is the Governor of Pennsylvania goting to give the citizens of the State that assurance or is he still doing district messenger errands for outside labor agitators and going to let anarchy keep on in full swing? If there had been proper action on the murdering and rioting at the Maitby mine last week, troops would be ir this valley now and the danger of violence that is anticipated next week would be at a minimum. As it is now, it looks as though more OMAHA, Neb., Sept. 13.—Another killing frost fell throughout northern and central Nebraska and South Dakota last night, injuring late corn.
